**Picture a Scientist – Public Screening at USask Friday June 17th at 2:30pm Neatby-Timlin Theatre (Arts 241)**

You and your entire lab/research team are invited to attend and view the award-winning documentary *Picture a Scientist*. *Picture a Scientist* chronicles the groundswell of researchers who are writing a new chapter for women scientists. Biologist Nancy Hopkins, chemist Raychelle Burks, and geologist Jane Willenbring lead viewers on a journey deep into their own experiences in the sciences, ranging from brutal harassment to years of subtle slights. Along the way, from cramped laboratories to spectacular field stations, we encounter scientific luminaries - including social scientists, neuroscientists, and psychologists - who provide new perspectives on how to make science itself more diverse, equitable, and open to all. Merle Massie will lead an open discussion following the documentary.

**Date:** Friday, 17 June 2022 at 2:30pm

**Cross Disciplinary and Institutional Opportunities**

**Call for Applications - Research Cooperation in the Canadian Francophonie Program**

Acfas (the Francophone Association for the Advancement of Sciences) is pleased to open a call for applications for the [Research Cooperation in the Canadian Francophonie Program](#). This program aims to
encourage research collaborations between two French-speaking researchers (or teams) from different provinces or from a province and a territory, by offering mobility grants of up to $5,000 per year.

Who is eligible as a visiting scholar?
Graduate students, postdoctoral fellows, research professionals and professors who are associated with a public university in New Brunswick, Nova Scotia or Quebec.

Who is eligible as a host environment for a visiting scholar?
Professors, research professionals, research chairs and research groups who are associated with a public university in a province or territory of Canada (all provinces and territories combined), as well as publishers of French-language or bilingual scholarly journals in a territory or province of Canada.

Four types of collaborative projects are eligible:

1. Collaboration in a research project between two established researchers (research professionals, professors, postdoctoral fellows, etc.);
2. Collaboration in a research project between an established researcher and graduate student;
3. Internship of a graduate student in a research group, a research chair or a scholarly journal, to carry out various mandates that may go beyond research, for example the administration of the journal, linguistic revision, translation, etc.;
4. Participation of a graduate student in a summer school in another province or territory.

**Deadline to Apply:** 10 September 2022
*The selected projects will be able to start in the winter of 2022.*

Visiting scholars must identify a host environment before submitting their application, and attach to their application a letter of collaboration from this environment. [Information on the application file](#) (in French).

As a potential host environment, to help you identify a visiting scholar, you can post an internship offer on the program page (see details on the page) or post in the LinkedIn group.

**Health Sciences Opportunities and Updates**

**Dr. Margo Greenwood appointed interim Scientific Director of CIHR Institute of Indigenous Peoples’ Health**

On 02 June, Dr. Michael J. Strong, President of the Canadian Institutes of Health Research, announced that Dr. Margo Greenwood has been appointed interim Scientific Director of the CIHR Institute of Indigenous Peoples’ Health for a term of three years. The Institute will be hosted at the University of Northern British Columbia.
As Scientific Director, Dr. Greenwood will play a leadership role in advancing Indigenous self-determination in health research while building a trusting relationship with the Indigenous research community. She will also be instrumental in finding a way forward in respecting the unique identities of rights-holding groups and establishing the hiring process for the next Scientific Director in collaboration with Indigenous communities.

Dr. Greenwood is a highly acclaimed Indigenous scholar of Cree ancestry. She is currently the Academic Leader of the National Collaborating Centre for Indigenous Health and a Professor in the Education program at the University of Northern British Columbia. Dr. Greenwood is recognized nationally and internationally for her work in early childhood care and education of Indigenous children and in public health. In December 2021, she was appointed an Officer of the Order of Canada for her scholarship in early childhood education and her transformational leadership in Indigenous health policy. From 2006 to 2013, Dr. Greenwood was a Member and Chair of the Institute Advisory Board for the CIHR Institute of Indigenous Peoples’ Health.

**SHRF 2022-2023 Research Connection Grant Deadline Reminder**

02 August is the deadline for submissions for Research Connections activities applications. Any projects related to sharing health research knowledge are invited to apply. The objective of this grant is to facilitate the sharing of health research knowledge in non-academic mediums or settings.

**Application Deadline:** 02 August 2022  
**Funding Start:** 30 August 2022

**Amount:** up to $10,000 in matching funding over one year

Find full details here. For questions, please address the Program Contact, Chelsea Cunningham (ccunningham@shrf.ca).

**Building Bridges Between Scientific and Indigenous Knowledges**

Join us for the final session of In Conversation With, the Social Sciences and Humanities Research Council’s (SSHRC’s) series of public talks held in collaboration with The Conversation Canada, featuring the winners of SSHRC’s 2021 Impact Awards.

Carole Lévesque is the recipient of the SSHRC 2021 Connection Award. She is a professor at the Urbanisation Culture Société Research Centre at l’Institut national de la recherche scientifique, and director of the DIALOG network, a research and knowledge network facilitating collaboration between universities and Indigenous community partners. Her areas of expertise include Indigenous Peoples and knowledges, community integration, social environment, and sustainable development.
Register to hear her talk about building bridges between scientific and Indigenous knowledges on **14 June 2022 at 2 pm (eastern)**.
