**Cross Disciplinary and Institutional Opportunities**

**Tri-Agency Special Response Fund for Trainees (Ukraine)**

The Government of Canada has announced special funding, in the form of supplements to existing research grants, that will provide relief and assistance to research trainees from Ukraine.

The [Special Response Fund for Trainees (Ukraine)](#) is administered by Canada’s three federal research funding agencies – the [Canadian Institutes of Health Research (CIHR)](#), the [Natural Sciences and Engineering Research Council (NSERC)](#) and the [Social Sciences and Humanities Research Council (SSHRC)](#) – and provides support to graduate students and postdoctoral researchers directly impacted by the Russian regime’s invasion of Ukraine.
This temporary funding will help trainee(s) who were expected to return to Ukraine in 2022 but cannot because of the current crisis or trainee(s) who cannot continue their planned course of studies or research in Ukraine because of the crisis and are now in Canada.

Active and eligible grant-holders can apply for this special supplement by filling out the CIHR, NSERC, and/or SSHRC form. If there are students who this may apply to, they must see their supervisor.

Applications will be accepted using a continuous intake up to 22 December 2022.

Please contact research.services@usask.ca for more information.

Health Sciences Opportunities and Updates

**SHRF Solutions Information Session**

The SHRF Solutions Program is open to grant applications from interdisciplinary and transdisciplinary teams including knowledge-users to catalyze innovative new ideas and approaches, promoting creative problem solving, or advance the translation of research into real world settings and practical applications to address one of the focus areas named in this year’s competition.

With the upcoming SHRF Solutions eligibility deadline on 29 September, there will be a series of virtual information sessions. These sessions are designed to answer additional questions about the funding opportunity, focus areas, and partnerships not covered in the main Information Session (recording of that session can be found [here](#)). Please see below for the next two upcoming sessions.

**Virtual Care**

**When:** Tuesday, 6 September at 12pm CST

**Register:** [here](#)

**Lung Health**

**When:** Thursday, 08 September at 12pm CST

**Register:** [here](#)

These sessions will cover additional information regarding project fit with focus area and other common questions. Questions may also be emailed to Chelsea Cunningham at ccunningham@shrf.ca.

**CIHR Access Newsletter**

Please see below for highlights from the 28 July to 25 August CIHR Access Newsletter:

- Policy Research for Health System Transformation Catalyst Grant – Update: New funding pool added to the funding opportunity
- Training Grant: Patient-Oriented Research - Health System Stream
- Team Grant : Monkeypox Rapid Research Response
- Doctoral Research Award : Canada Graduate Scholarships Doctoral Award: 2022-2023
- Doctoral Research Award : Doctoral Foreign Study Award (DFSA): 2022-2023
• Doctoral Research Award: Fall 2022 Priority Announcement (Specific Research Areas)

Pre-announcement
• Team Grants: Intervention Trial in Inflammation for Chronic Conditions – Evidence to Impact
• The Joint Canada-Israel Health Research Program – Phase II – 2022-2023 competition
• The National Women’s Health Research Initiative: Funding opportunity for a Pan-Canadian Women’s Health Coalition
• Café Scientifique Program
• Healthy Cities Research Initiative (HCRI) – Planning Grants for Implementing Healthy Urban Policy
• Ask Me Anything Sessions: Fall 2022 Project Grant Competition

View these opportunities in the CIHR Funding Opportunity Database.
